

## Feel the community spirit

Our member roster includes DSLR and mirrorless slingers, point-and-shooters, film fans and smartphoners. We are documentarians, artists and playful experimenters. You're sure to meet someone who shoots like you and others who may inspire you to try something new.

## Tune your photographic vision

Bring your photos to **print or projected-image nights**. Join in the conversation to encourage and learn from each other. Take what you learn with you on your next photo walk, edit with more confidence and make better prints, all while flexing your creative and technical muscles.

## Feeling competitive?

Take all you learn and pour it into a print or projected-image **competition**. Submit your photos on your own or as part of the club in regional and national competitions. These challenge us to produce our best work. BPS members have ranked highly so let's continue to show the country what great photography looks like!
